

EDUCATION:

Aditya College of Engineering and Technology, Andhra Pradesh, India.
B.Tech., Electronics and communication Engineering

May 2026

SKILLS

Analytical Tools:

- Power BI
- Advanced Excel

Programming Languages:

- SQL (Structured Query Language)
- Python (Basics)

Database:

- MYSQL

PROJECTS:

Code X Market Analysis – Food & Beverages [Power BI | SQL | Power Query| DAX] [Live Dashboard](#) Sep 2026

- Analysed 10,000 consumer survey responses across 10 cities in India to identify energy drink preferences, demographics, purchasing behaviour, and brand awareness.
- Wrote SQL queries to clean and aggregate survey data before modeling in Power BI.
- Built an interactive Power BI dashboard using Power Query and DAX that replaces manual survey analysis, with filters across 3 dimensions (age, gender, city,).
- Identified key customer segments, preferred product attributes, effective marketing channels, and city-level trends, providing actionable insights and recommendations for Codex's Marketing Team.

Superstore Sales Analysis – [EXCEL| Power Query| Pivot Tables] [Link](#) Aug 2026

- Cleaned and validated 9,994 retail transactions using Power Query and prepared the dataset for sales, customer, product, regional, and profitability analysis.
- Built an interactive Excel dashboard using Pivot Tables, Pivot Charts and slicers to track sales, profit, orders and customers across 4 years (2014-2017), with drill-down by region, category and segment.
- Analyzed sales and profit across 4 regions, 3 product categories and discount levels to uncover margin leaks, and recommended discount controls and region-level strategies to improve profitability.
- Applied conditional formatting and KPI summaries to highlight top- and bottom-performing regions, categories and products at a glance.

Business Insights 360 – AtliQ Hardware [Power BI | SQL | EXCEL| Power Query| DAX] [Live Dashboard](#) Aug 2026

- Designed a scalable star-schema data model and transformed business data from Excel and SQL databases, reducing data processing time by 30%.
- Developed 5 interactive Power BI dashboards covering Finance, Sales, Marketing, Supply Chain, and Executive views, using DAX, drill-throughs, bookmarks, navigation buttons, and conditional formatting.
- Optimized report performance using DAX Studio, achieving a 5% performance improvement, and delivered actionable insights on sales, profitability, inventory, customers, and products, contributing to a 20% reduction in data-related expenses.

CERTIFICATIONS / AWARDS

- EXCEL – Codebasics [Link](#)
- Get Job Ready: Power BI & Data Analytics for All Levels 3.0 — Codebasics [Link](#)
- SQL — Codebasics [Link](#)
- Python Essentials 1 & 2 – Cisco [Link](#)
